

Why MONTESSORI?

FIND OUT WHY MONTESSORI IS SUCH A GREAT CHOICE FOR YOUR CHILD

Parents frequently ask, 'What is Montessori education?' Responses to this question vary widely but often include language about mixed-age classrooms, hands-on learning, and brain-based curriculum. While such responses are correct, they do not express the most important benefit – the core – of Montessori education and its contribution to the development of a child's authentic self-esteem.

The Core of Montessori will demonstrate this benefit in terms that are truly relevant to parents and in a way that inspires their full support of this holistic developmental method.

We are joined by international speaker Laura Flores Shaw, Head of School at Oak Knoll Kinderhaus Montessori, California, USA. She holds a Master of Science degree in psychology and is a family therapist.

Join us not only to hear this warm and inspiring talk, but to celebrate 100 years of Montessori's contribution to education in Australia. The evening will also include a presentation covering a century of Montessori in Australia, highlighting the scope, diversity and renown of the Montessori approach.

Wednesday, 28 August 2013, 7:00pm - 9:30pm

Melbourne Montessori School
6 Roselea Street, Caulfield South

Registration Fee: \$20
Refreshments included.

Celebrating a century of Montessori in Australia
